SUMMARY

I have a proven track record of effectively creating and maintaining software products as a proactive and motivated software engineer. I'm really good at problem-solving and coding, and I work well in teams and in communication. I have a strong desire to use my technological knowledge to support the growth of a dynamic, creative company.

WORK EXPERIENCE

Solera | Associate Software Engineer   **Sept 2022 - Present**

- Experienced Full Stack Developer who contributed to the successful development and deployment of the Inventory Management System.
- Developed a platform that combines **20+** online applications utilizing **Java, Angular, PostgreSQL, and NX-Workspace**. optimized user experience and accessibility by using Iframes to ensure a **smooth application loading experience**. Implemented a unified and efficient solution.
